

TERMINAL APPLICATION

Welcome to...

by Benedicte Powell

T1A3

WHAT IT IS?

TRY NOT TO DIE is a text based Choose Your Own Adventure game based on the CYOA books I read as a kid
The user must follow through the story - making choices which either lead to death - or continue the story!

WHY I MADE IT?

Choose Your Own Adventure Games are fun! And I enjoy games!
A fun way to tell a story in a game format & keep the users attention with interaction.

HOW IT IS USED:

GAME TITLE

GAME INSTRUCTIONS

USER INPUT NAME / PRONOUN

STORY STARTS

USER SELECTS CHOICE FROM PRESENTED OPTIONS

CHOICE LEADS TO NEXT STORY SEGMENT

THIS REPEATS...

UNTIL DEATH

OR WINNING!!!

START OVER OR EXIT

A WALKTHROUGH OF MY TERMINAL APPLICATION : FEATURES...

- MODULES:

- each story segment is contained in a module

- IF/ELSE STATEMENTS:

- used for directing to the next story segment depending on the choice made
- used for making sure the user inputs the correct pronoun for grammar

- WHILE & DO LOOPS:

- used for making sure the user cannot input over 35 letters in the name area.
- used for TTY-Prompt choices
- used for typewriter effect

- TTY-PROMPT (GEM):

- used for user to select a choice and move onto the next segment of the story.

- COLORIZE (GEM):

- used to colour text throughout the application.

- RAINBOW (GEM):

- used to colour text and ascii art throughout the application.

- ASCII ART (GEM):

- used to create “you have died” with a skull and crossbones image which appears when the users response results in death.

- ARTII (GEM):

- used to create “CONGRATS!! YOU DIDN'T DIE” message when the user makes it to the end of the story without dying.

WALKTHROUGH OF MY TERMINAL APPLICATION: LOGIC...

MODULES: to contain the story segments and methods to direct to different parts of the story

IF/ELSE STATEMENTS: for ease in directing the story depending on user choice and for making sure the user picks the correct pronoun for the best grammar results during the game

TTY-PROMPT: to limit user input & easier to handle than accounting for written responses

WHILE & DO LOOPS: for limiting user input to below 35 letters for a user name & menu choices for TTY-Prompt as well as for the typewriter effect

APPLICATION TITLE IN CODE

```
2
3  def title
4     puts "\n"
5     puts "
6     puts "
7     puts "
8     puts "
9     puts "
10    puts "
11    puts "
12    puts "
13    puts "
14    puts "
15  end
16
```

The image displays four identical ASCII art representations of the game box for 'The Legend of Zelda: Breath of the Wild'. Each box is rendered in a pixelated, monochrome style using only black and white characters. The boxes are arranged in a horizontal row. The first box is on the left, followed by three more boxes to its right. The fourth box is on the far right and includes color escape sequences: ".red" for the title and ".light_red" for the subtitle.

APPLICATION TITLE IN GAME

Welcome to...

WHILE LOOP USED TO PREVENT USER FROM NAMES LONGER THAN 35 LETTERS

```
#user input for name
def yourname
  yourname = gets.chomp
  while yourname.length >= 35
    puts "Sorry, that's too long, try again".magenta
    yourname = gets.chomp
  end
  return yourname
end
#def yourname end
end
```

IF AND ELSE STATEMENTS USED TO MAKE SURE CORRECT PRONOUN IS USED FOR BEST GRAMMATICAL OUTCOME IN STORY

```
#user input for pronoun
def yourpronoun
  yourpronoun = gets.chomp
  if yourpronoun == "her"
    return yourpronoun
  elsif yourpronoun == "his"
    return yourpronoun
  elsif yourpronoun == "their"
    return yourpronoun
  else
    puts "please use one of the suggested pronouns for grammar reasons :D".magenta
    yourpronoun = gets.chomp
  end
end
#def pronoun end
end
```

DEMO OF USER INPUT & HOW IT WORKS

HOW TO PLAY:

Welcome to TRY NOT TO DIE ... This is a story based game in which YOU, yes you, choose your own fate. Follow through the story and try to navigate to the end without dying!

***PLEASE NOTE: This game works best in full screen!

What should we call you?

sdhgfjkhdsghgfdkjhsfgdkjhkgkjhsdfgkjhsghkjhsfdgksjhfd

Sorry, that's too long, try again

Bene

Ok, Bene, and what is your preferred pronoun? *her/their/his?

MODULES CONTAIN: STORY SEGMENTS & METHODS TO LEAD TO NEXT PART OF THE STORY

```
42 # this module presents when the user selects "escape down the manhole to your right?"
43 ▾ module Pt1ch1
44
45 ▾ def self.text_pt1ch1(name, pronoun)
46     return anim("\n
47     #{name} pulls the lid off the manhole and fumbles for the ladder,
48     the brisk air has made #{name}'s hands cold and they fail to get a good grip,
49     slipping and falling for what seems like hours...
50     then the cold harsh slam of #{name}'s body echoes through the quiet streets above.
51     #{name} HAS DIED.")
52 end
53
54 ▾ def self.text(name, pronoun)
55     #divider
56     puts Rainbow("-----").lightcoral
57     # ascii art image appears when death results
58     a = AsciiArt.new("/Users/bonepile/Desktop/BenedictePowell_T1A3/DOCS/skullbones.png")
59     print a.to_ascii_art(width: 50).light_red
60     prompt = TTY::Prompt.new
61 ▾ option = prompt.select("* What would you like to do?") do |menu|
62     menu.choice "start over"
63     menu.choice "exit the game"
64 end
```

METHODS CONTAIN: TTY-PROMPT, DO LOOP & 'IF AND ELSE' STATEMENTS

RESPECTIVELY: LET USER PICK A CHOICE AND THEN LEAD USER TO NEXT STORY SEGMENT DEPENDING ON THAT CHOICE

```
89
90     def self.text(name, pronoun)
91         #divider
92         puts Rainbow("-----").lightcoral
93         prompt = TTY::Prompt.new
94         option = prompt.select("*What would you like to do?") do |menu|
95             menu.choice "tell the man you'd be happy to let him tag along on your journey"
96             menu.choice "say nothing and keep going on your way?"
97             menu.choice "politely decline... this guy is creepy"
98             menu.choice "exit the game"
99         end
100         if option == "tell the man you'd be happy to let him tag along on your journey"
101             puts Pt2ch21.text_pt2ch21(name, pronoun)
102             Pt2ch21.text(name, pronoun)
103         elsif option == "say nothing and keep going on your way?"
104             puts Pt2ch22.text_pt2ch22(name, pronoun)
105             Pt2ch22.text(name, pronoun)
106         elsif option == "politely decline... this guy is creepy"
107             puts Pt2ch23.text_pt2ch23(name, pronoun)
108             Pt2ch23.text(name, pronoun)
109         else option == "exit the game"
110             return
111         end
112     end
113 end
114
```

METHOD USED TO DEFINE ANIMATION TO MAKE TEXT WRITE LIKE A TYPEWRITER

```
1  #typewriter effect animation effect
2
3  def typewriter(string)
4    string.each_char do |n|
5      print n
6      slt = rand(0.02..0.08) #wait between letters
7      sleep(slt)
8    end
9    print "\n"
10   sltime
11 end
12
13 def sltime
14   time = rand(0.5..1.5) #wait between lines
15   sleep(time)
16 end
17
```

CONGRATS!!

YOU DIDN'T DIE

Enjoy your three wishes & thanks for playing!!

FINAL RESPONSE FOR WINNING IN GAME

CHALLENGES, ETHICAL ISSUES, FAVOURITE PARTS

CHALLENGES :

Gem installation issues
Organisational skills
Limiting story

ETHICAL ISSUES :

Didn't run into any

FAVOURITE PARTS :

Making ascii art and text
Coloring the text in the program
Typewriter effect
Overall making something that
actually worked... so far

THANKS FOR LISTENING
